

Nazarii Konechnyi

Software Developer

Dublin, Ireland · +353879644297 · nazar.konechniy2@gmail.com · linkedin.com/in/nazariik · Portfolio: [Nazarii Konechnyi](#)

PROFILE

Dublin-based Computer Science student at Dublin City University, building full-stack web apps with React/TypeScript, .NET/FastAPI and PostgreSQL. I enjoy shipping end-to-end features from REST APIs and data models to responsive UIs and deployment. I care about reliability, performance and clean UX. Currently seeking software engineering internships in Dublin (or remote).

EXPERIENCE

Full-Stack Developer Summer Intern — Honeycomb Software

Rivne, Ukraine · 06/2022 – 09/2022

- Delivered 3 scoped production features using React and .NET, including implementation and verification of changes in an Agile workflow (PRs/code reviews).
- Integrated React frontend with .NET backend via REST APIs (request/response mapping, error handling) for a production application used by 100+ users.
- Efficiently reproduced, debugged, and fixed 10+ production bugs under sprint deadlines to improve reliability and reduce customer-facing issues.
- Collaborated in a small Agile team (5 developers): daily stand-ups, sprint planning, and code reviews, aligning deliverables with sprint goals.

EDUCATION

Dublin City University — Bachelor of Science in Computer Science

Dublin, Ireland · 09/2024 – 05/2028

- Achieved First Class Honours (1:1) in Year 1

STEP Computer Academy — [Software Development Diploma](#)

12/2019 – 06/2022

- Graduated in the top 1% of the software engineering cohort.

Cathal Brugha College — Computer Systems & Networks

Dublin, Ireland · 09/2023 – 05/2024

- Earned 8/8 distinctions, receiving the highest grade in every module.

Technical College, NUWEE — Associate's Degree in Applied Mathematics

Rivne, Ukraine · 09/2020 – 06/2024

PROJECTS

Menu+ — QR Menu Builder CMS [Live](#) | [GitHub](#)

- Built full-stack QR Menu Builder CMS (React + TailwindCSS, FastAPI) on Supabase/PostgreSQL: designed 6-table relational schema + SQL migrations.
- Integrated Supabase auth (register/login/verify) + 21 REST endpoints for CRUD (venues, menus, categories, items, orders), Pydantic validation, Swagger/OpenAPI docs.
- Shipped public menu + WhatsApp order flow, deployed frontend (Vercel), backend (Render), handling dozens of test categories and items.

JobsDublin.ie — Irish Job Board Platform [Live](#) | [GitHub](#)

- Built REST APIs (23+ endpoints) + PostgreSQL database handling 100+ vacancies with search and pagination
- Implemented full CRUD for users, companies, and applications using object-oriented programming (FastAPI)
- Developed scalable employer dashboard with real-time applicant tracking and SQL analytics (React)

Online Classifieds Platform — Team Lead Project [GitHub](#)

- Led 7-person team building classifieds platform with authentication, role-based authorization, and advanced search
- Created PostgreSQL database schema (14 tables) with .NET Identity + Entity Framework ORM
- Built ASP.NET Core REST APIs + React frontend with complex relational SQL queries and CI/CD pipeline

AWARDS & ACHIEVEMENTS

2nd Place — CompSoc Annual CTF 2026

University of Galway · February 2026

- Placed 2nd in cybersecurity CTF (team "VI KA", 30 teams across Ireland).
- Solved web security, cryptography, and forensics challenges.

Datalex Best DIME Project Award 2025

Dublin City University · May 2025

- Won €2,500 prize for best digital innovation project (44 teams).
- Recognized for poster, report, orals, and website development.

SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript, Python, C#, C, C++
- **Frontend:** React, Redux, HTML5, CSS3, TailwindCSS, Bootstrap
- **Backend & APIs:** ASP.NET Core, FastAPI, REST API design
- **Databases:** PostgreSQL, Supabase, MySQL, SQL, ORM
- **DevOps & Tools:** Git/GitHub, Docker, Linux, CI/CD, AWS/Azure, OOP, Agile and Scrum Methodologies
- **Soft Skills:** Strong Communication, Problem-Solving, Team Collaboration, Self-Motivated, Analytical
